About the School
Cannons Creek Independent School is a co-educational, combined school from Grade RR to 12. In 1997, a group of like-minded individuals got together with one common goal, to establish a school with small classes and to achieve the highest scholastic standards. Teachers were appointed who would rival their peers in the dynamic field of education. Through the staff’s determination and hard work, supported by the parents and school trustees, the school has provided a platform for learners to be prepared for a combination of an excellent all-round education and life skills.

Service
Outreach is an integral part of Cannons Creek. The outreach program is co-ordinated by the Interact Club. All Cannons Creek High School pupils are encouraged to involve themselves in one or more of the outreach programmes that the school supports. Grade 11 pupils are expected to volunteer their time at an NGO as part of the Grade 11 Community Service in Life Orientation. Pupils at the school support Ubuntu, a home for HIV/AIDS orphans.
