Curro is a leading independent school network with various schools across southern Africa. Curro schools offer high-quality education that embraces 21st-century learning.

The High Schools
At Curro schools, learners are encouraged to explore and express their individuality within acceptable boundaries, and ultimately take responsibility for their actions. The dynamic curriculum covers problem-solving, critical thinking and the development of skills and values. Teaching is provided in classes with controlled sizes, by qualified and committed educators. The learners are exposed to a quality learning program in the fields of academics, sports and culture, within which they can grow and develop their own, individual abilities.

The schools use their facilities to ensure that the compulsory extramural program offers a suitable variety of sporting and cultural activities to the learners in the summer and winter seasons. Learners are prepared for the matriculation examinations set by the Independent Examinations Board (IEB).
Curro High Schools
